

Pulse3000

The Comprex® Pulse3000 trailer brings our patented cleaning technology to remote locations.

The powerful unit is also suitable for the systematic cleaning of drinking water networks and raw water pipes up to DN 350/400.

- **Maximum flexibility**
with trailer solution
- **Powerful compressed air generation**
and large compressed air storage tanks
- **Can be used independently**
thanks to stand-alone compressor
- **Scalable for large nominal diameters**
by synchronized operation of multiple Pulse3000 units
- **Advanced compressed air treatment**
through triple filtration unit

Pulse3000: Outside dimensions. Inside performance.

Dimensions

Specifications

Applicable nominal diameter	up to DN 350/400 ¹
Media supply	Diesel
Permissible media temperature	50 °C
Nominal pressure rating	PN 10
Standard connections	Storz-C DIN 14301
Compressed air volume	~ 3,000 L
Control	Manual via touchscreen

¹ Multiple units can be synchronized to clean larger pipes up to DN 1600.

We love challenges!

In addition to standard solutions, we work with you to develop customized systems that are perfectly suited to your processes. Contact us – we will find the right solution for you.

This is how our patented
Comprex® process works:
